

A BIG SENSATION.

The Tewksbury investigation is being talked about by a large portion of the residents of the United States and Europe, but another matter which is the subject of much comment, especially among the male portion of our own city, is as to how Putnam & Son sell clothing at the low figures they do. This firm are always among the first to get the spring styles, and at present their counters are filled high with a rich assortment of men's and boys' clothing. Spring overcoats they make a specialty, and all their goods are of the best quality for the prices.
